

# Kids Mood+®

Sprinkle a little balance into their day.\*

## What It Is

A plant-based, kid-friendly blend of herbs and adaptogens, including Saffron to help promote focus and support healthy mood.\*

## Why You Need It

Kids have a lot on their plate, from school, and homework, to extracurricular activities and friends. The ups and downs of each day make it easy to feel like a lot is going on, and sometimes they need a little extra support to find their footing again.

## How It Works

- Saffron and a blend of other herbs and adaptogens support healthy mood, and focus.\*
- Delivered in a delicious pixie stick, it's easy--and fun--for kids 4+ to take on the day.

## The Science

We formulated Kids Mood+ with our own kids in mind, using a blend of plant-based botanicals and phytonutrients that help support the body's natural balance. The formula is gentle and kid-friendly--because what's not in the product matters just as much as what is.\*

# Mental Wellness Tips

Try incorporating these easy practices into your kids' routine to support their mental well-being all year long:

- Start the day with a positive affirmation before heading to school
- Encourage short movement breaks during homework or study times to help them recenter themselves.
- Try to establish schedules and be consistent with bedtime and wakeup time to support stability.

# How to Use:

- Children age 4 and up can take one powder stick of Kids Mood+ by mouth (no water needed!) or mix it in your drink or food.
- Take as needed.
- Do not exceed three stick packs a day.
- Perfect for homework breaks, car rides, or after-school downtime.
