# KIDS VitaGBX<sup>®</sup>

Kids VitaGBX<sup>®</sup> is a comprehensive multivitamin for kids and teens that combines more than 50 vitamins, minerals, amino acids, and phytonutrients. Packed with pure nutrients kids and teens need as they grow and develop, our easy-to-digest tablets feature both our Bright Mind Proprietary Blend (for mind support) and Amare GBX+ Proprietary Blend (for gut-brain axis support) to empower a well-balanced body and mind. Features a delicious, fruity flavor — perfect for kids and teens of all ages.\*

## KEY INGREDIENTS

**Unique Bright Mind Blend** — Fills in gaps in daily nutrition specifically for kids and teens and contains more than 50 vitamins.

Today's knowledge about children's nutrition points us toward a vast list of nutrients we should be consuming on a daily basis to have optimal health and mental wellness. However, realistically it is very difficult to obtain all these nutrients through the foods we eat.

Kids VitaGBX is a premium multivitamin, plus a mind support formula that delivers a daily dose of high-quality essential nutrients. Kids VitaGBX combines more than 40 vitamins, minerals, amino acids, and phytonutrients in their most active and bioavailable forms to provide children with optimal micronutrient nutrition for a well-balanced body and mind.

Kids VitaGBX is not your typical multivitamin. We've taken it a step further to formulate this product with a Bright Mind Proprietary Blend, which contains key phytonutrients and our own Amare GBX+ Proprietary Blend that enhances optimal functionality of the gut-brain axis.

Kids VitaGBX is a modern multivitamin, with the proper amounts of each nutrient specifically for children. Not too little, but also not too much of any given vitamin or mineral – just the right balance to supplement gaps in the average daily diet.

Kids VitaGBX helps fill those nutritional gaps to support your kids and teens in living each day to the fullest!\*
