

GBX PROTEIN™

microbiome-boosting
plant protein*

17 GRAMS
OF ULTRA-PURE,
PLANT-BASED
PROTEIN*

NOURISHES
GOOD GUT
BACTERIA*

HELPS CONTROL
APPETITE AND
SUPPORTS
MUSCLE MASS*

GBX Protein™ delivers 17 grams of pure plant protein. This unique chickpea, brown rice, and pea protein blend nourishes good bacteria in the gut and improves microbiome balance, while controlling appetite and supporting muscle mass. Fully-loaded with only functional ingredients, this potent formula supports the gut microbiome, helping fuel a healthy lifestyle.*

Our days are usually filled to the max. Especially on busy days, we don't always have the opportunity to get the nourishment our body needs. And many of us find ourselves grabbing a quick protein shake for a breakfast pick-me-up or an afternoon perk. The problem is, many of us are consuming bad protein powder, which lack different amino acids, have fillers, or are just low quality in the kind of protein they have. They usually taste bad too. So, we knew we had to have a protein powder that was not only good for your body but tasted good too.

Our GBX Protein™ powder contains the Artesa® Chickpea blend, which gives a nice texture and flavor to the blend. The chickpea blend is formulated with premium, sustainably sourced chickpeas — so it's not only good for your gut, but for the environment too.*

Our GBX Protein packs a protein punch too, delivering 17 grams of pure plant protein. Our unique chickpea and pea protein blend nourishes good bacteria in the gut and improves microbiome balance, while controlling appetite and supporting muscle mass. Our specialized blend is smooth (not gritty!) and flavorful, unlike some other protein blends on the market.*

Fully-loaded with only functional ingredients, this potent formula supports the gut microbiome, helping fuel a healthy lifestyle.*

This protein-filled blend comes in two delicious flavors, chocolate and vanilla, so that you can easily add it to milk/non-dairy milk or mix it with your favorite shake.
